Subject: Question about PEHSU project in USVI
Attachments: removed.txt

Dear Dr. Davis:

I hope all is well. We recently had a call of the St. Croix EJ work group. Ms. Dorsett provided some very good information to the group about Zika.

Later in the call, our colleagues from EPA were interested in some of the developments associated with the PEHSU's work and wanted to touch base with you. Especially related to some of the plans associated with the TSEP.

Would you be available for a phone call to discuss further? It appears that Fridays are the easiest. Let us know when might work for you.

I look forward to hearing from you.

Very best,
Thomas
